

PartialCAD 3.2 Elefsina

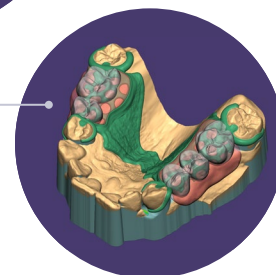

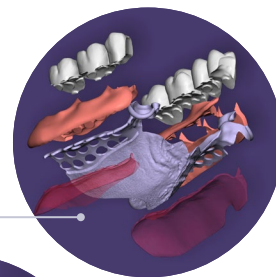

MORE DESIGN
FLEXIBILITY
FOR PARTIAL DENTURES

PartialCAD 3.2 Elefsina at a glance

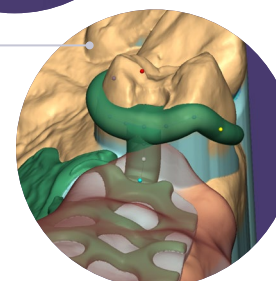

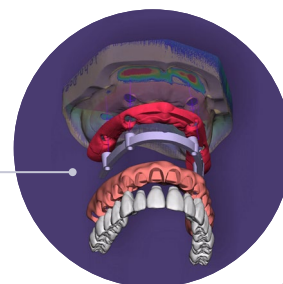

Go fully digital with all components of the partial denture with QuickSnap

- Former beta feature QuickSnap, a new workflow to **design the first complete digital partial dentures**, is now available to all users
- Enjoy **maximum freedom and flexibility for 3D printing** of the framework, gingiva and teeth in parallel to increase production efficiency
- With the QuickSnap design mode, the **produced parts can be easily assembled**

Save valuable design time

- **Streamline** your design of screw-retained hybrid dentures
- **Design clasps** with a single click
