

Supplying the .licenseRequest file

1. First, start your software application (eg. DentalCAD)
2. Click the **Tools** button and choose **About**. The About window will be displayed.
3. In the **About** window, click **Copy workstation license request**.
4. Click **OK**. The Windows Explorer opens and displays the folder where the license request is stored (.licenseRequest file is preselected).
5. Select the file, attach it in the dialog window and submit your request via our report form.
